

COLLEGE NIGHT TAKEOVER AT SANTANDER STADIUM

On Labor Day, Monday, September 7, HACC, Penn State and York College all came together for College Night Takeover at Santander Stadium. Two professors from each College were recognized and presented with a Proclamation signed by Representative Kevin Schreiber, Representative Seth Grove and Mayor Kim Bracey. HACC York’s very own Dennis King, Assistant Professor – HVAC, and Tracy Smith, Instructor – Electrical Technology, were recognized and received a proclamation for their work in the community. Our president, Dr. Ski was among those throwing out the first pitch (he did a great job)! A special thank you to everyone who helped with this event – SGA, Community Service Club, PTK, Stephanie Reams, and especially our mascot, Hemingway (Ashley Zerne) who endured the extremely hot temperatures!

Premier Construction Group, Inc. began work in the William F. Goodling Center Building on the Weld Lab. We are enthusiastic that it will serve many students in our community. Substantial completion is slated for December first so that we can open for spring 2016 semester. Please pardon the construction noise and mess. We will try to keep it to a minimum.

Cytec Writing Center & Communications Hub

The York Writing Center and Collegewide Communication Center project was possible mainly due to a grant from the HACC Foundation and is approaching completion. East Coast Contracting is waiting on electric, data, and vestibule items for completion. We anticipate this work to occur in the next several weeks.

Cost is \$35.00 and includes everything you need to paint a masterpiece that you can take home with you (paint, canvas, all needed art supplies). You just need to register and come with an open mind, and an art smock, apron, or clothes that can get messy. The session is limited to 20 participants. We will be painting the image below – it will be fun to see all of the versions we come up with!

DISASTER DRILL

On September 25, 2015 HACC York nursing students were invited to participate in a disaster drill at York Hospital. York Hospital and National Disaster Life Support Foundation collaborate to ensure the emergency responders (prehospital) and emergency department staff (physicians and nurses) can triage and effectively manage mass casualties. Two levels of HACC nursing students were represented in the drill.

LEFT: Moulage staging area. ABOVE: Back row: Cathy Sottile, Cassie Deitz, Assia Guerch, Zorana Rice, Margie Hinkle (instructor) Sharnette Smith; front row: Jenna Brown, Diana Olvera, Sara Cosgrove, Lisa Gonzalez, Alycia Hebenstreit, Angela Akins

The students receive a patient profile and as the drill

progresses the students act out the part of the patient profile. The drill was a bombing at a concert. Prior to the drill the “patients” placed moulage on to replicate the injuries often seen in an explosion.

The upper level students just learned about triage in the hospital and emergency settings the week prior to the drill. Several students stated after the drill that this experience helped to solidify the content learned in class.

This is the second year HACC students were invited to participate in the disaster drill. Not only is this a great learning opportunity for the students but also allows them to network with professionals in health care. This event is on a volunteer basis only, therefore not all students can participate due to work and classes.

HACC FEST 2015

On September 1, 2015, HACC York celebrated HACC Fest 2015. Many students, staff and faculty members came out to learn about clubs, organizations, and many other opportunities. They also enjoyed free food, lots of giveaways, and the opportunity to play “Name That Tune”.
